APPLICATION INSTRUCTIONS

In order to apply for this Oregon Community Development grant, it is necessary to submit a complete application to the Intergovernmental Relations Division, 155 Cottage NE, Salem, OR 97310, between December 2-13, 1985, 5:00 PM. Submit one original and three copies of the application.

PART II PROJECT INFORMATION

- A. What is the intent of this project? What is the CD problem it will address?

The Elgin Sanitary Sewer System Project seeks information on the effective and efficient manner to transport and treat effluent matter. Funds are needed to provide the City of Elgin with necessary monies to complete surveys and engineering cost analysis for updating the present sanitary sewer system, transport and treatment.

- B. What is the proposed work plan for this grant? What activities would you perform?

This grant requires the technical assistance of a consultant. The consultant would:

1. Compile and prepare a topographical map of the City which defines existing streets, existing sanitary sewer system network and countour lines.
2. Utilizing standard hydrological procedures, develop a sanitary sewer system plan for transporting effluent matter, including pipline location, size and priorities.
3. Utilizing standard effuent treatment methods, develop a sanitary sewer treatment plan that integrates the present treatment facility into the recommended plan and meets current DEQ Standards.
4. Develop a cost estimate plan for all proposed improvements.
